

# PRODUCT SHEET

## Translight Fabric™ Day to Night

With Translight Fabric Day-to-Night, a stage can quickly be shifted from day to night in a matter of seconds. This product makes it possible to achieve realistic shifts between all times of day through simple changes in your lighting. The product supports double-sided printing with a daylight image on the front and a perfectly matched night image on the back. Translight Fabric Day-to-Night can be printed in sizes up to 12x50 meters without seams, is lightweight, is easy to work with, transport and store, and is perfect for reuse.
